The Town Council of Zionsville
Town of Zionsville
1100 W. Oak Street
Zionsville, IN 46077

Dear Sirs:

I understand that Zionsville is considering the possibility of donating a piece of land to Habitat of Boone County for the construction of three homes. I wholly support this donation.

Habitat for Humanity has a rigorous process for selecting candidates for their homes. The individuals, over a couple of years, have to demonstrate their worthiness by physical labor, completing study courses and showing that they can accumulate the down payment necessary. In other words, they are hard-working, dependable people that will be an asset to any community.

Zionsville is now in a position where there are few to no affordable homes. Zionsville is in a position to demonstrate our welcoming nature by providing an opportunity for deserving families to join our community. This relatively small project will enhance our status as an all-American city.

I urge the Town Council to approve this gift of land.

Respectfully,

Christy A. Tidwell
